# MESSAGE

In recent years, **ORJA** has undergone a continual evolution, strategically positioning itself as a preeminent global supply chain for diverse products within the energy sector. In response to a dynamically changing landscape, we anticipate a swift evolution in customer demands, coupled with exponentially increasing expectations. Our clientele confronts a myriad of challenges.

**ORJA** is committed to ensuring the expeditious execution of projects, timely delivery, cost efficiency, and proactive management of environmental sustainability, safety, risk, and escalating regulatory compliance requirements. Our meticulous fine-tuning processes are geared towards ensuring the fulfillment of commitments, enabling substantial reductions in project costs and timelines.

The bedrock and driving force behind our accelerated growth are our skilled professionals. From conceptualization to excellence, the combined efforts of individuals and collaborative teamwork have propelled this rapid ascent. Whether in the international market or confronting challenges and devising strategies, every member at **ORJA** significantly contributes.

Our collective growth over the years is testament to the enduring team spirit that guarantees our continued expansion. These are truly exciting times for the company as we swiftly progress from providing engineering and innovative solutions to addressing intricate customer challenges. The convergence of technology tools with our core expertise opens up a significant window of opportunity for instigating disruptive innovations.

## WHO WE ARE

**OORJA**, an ISO-certified company, specializes in delivering comprehensive solutions and services across a spectrum of industries, including oil and gas, petrochemical, power, mechanical, electrical, instrumentation, special equipment, aviation, drilling, marine, offshore, food waste management systems, packaging and disposables, information technology

Headquartered in the Kingdom of Saudi Arabia, **OORJA** has established joint ventures in key international locations, including the Middle East, UK, USA, Canada, China, and India. This strategic presence positions **OORJA** as not only a solution provider but also as an integrated supply chain management partner.

Our primary focus is on satisfying customer needs through the timely delivery of high-quality products sourced from internationally reputed manufacturers. Leveraging our global partnerships, we ensure cost-effective solutions that meet the diverse requirements of end-users and contractors in the markets we serve. **OORJA's** commitment to excellence and efficient supply chain management distinguishes us as a trusted partner in the industry

## OUR VISION

Our relentless dedication to customer-centricity propels us toward international acclaim. We aspire to surpass expectations at every juncture of our journey through the delivery of innovative, industry-standard solutions, and high-quality products.

## OUR MISSION

Dedicated to delivering genuine and top-quality products, we uphold the highest professional ethics and embrace our responsibility to society. Our mission is anchored in a commitment to customer service excellence.

## OUR VALUES

We hold paramount the satisfaction and loyalty of our customers, respecting the dignity of our employees, fostering organizational and individual growth, promoting technical excellence, upholding professional ethics, and acknowledging our responsibility to society.

## OUR STRATEGY

Embedded in our core values, our strategy serves as a dynamic compass that navigates us through evolving markets. It propels us toward the realization of our vision and mission, ensuring adaptability and sustained progress

# DIVISIONS

# FOOD WASTE MANAGEMENT

**AVOIDING FOOD WASTE IS THE SINGLE GREATEST SOLUTION TO REVERSE CLIMATE CHANGE!**

We provide food waste management solutions for a variety commercial use. From restaurants to large – scale institutions. Utilizing microbial technology, our composting machines reduce waste volume up to 90%, decrease disposal costs and create a nutrient – rich reusable end product.

Divert waste from landfills and produce fertilizer for landscaping, gardening and farming. 24 Hour cycle to keep up with the busiest kitchens, supermarkets and food processing sites.

Wide product range to fit small businesses or large-scale operations.

# BENEFITS AND CAPACITY

**WE HAVE MACHINES AVAILABLE TO PROCESS 25 KG TO 5000 KG OF FOOD WASTE PER DAY**

- The volume of food waste is reduced up to 90% within a single 24-hour cycle.
- A fully automated process, with minimum noise and little or no odors.
- Our machines use a vfd (variable frequency drive), reducing energy consumption by 15%.
- State-of-the art, proven safety features.
- The output is nutrient rich soil enhancer that is environmentally safe.
- Waste food does not go to landfill where it creates methane and other greenhouse gases.
